Additional information

(1) General protection limit:

If a deposit becomes unavailable because a credit institution is unable to meet its financial obligations, depositors are repaid by a deposit guarantee scheme. The repayment is limited to maximum EUR 100,000 per person and per credit institution. This means that all deposits at the same credit institution are added up in order to determine the coverage level (subject to the application of French legal or contractual provisions in relation to netting between accounts which may show a positive or negative balance). The total coverage applies to such resulting amount. Deposits and persons eligible to the deposit guarantee scheme are defined by article L. 312-4-1 of the French monetary and financial code. (For more details, please refer to the website of the FGDR <https://www.garantiedesdepots.fr/en>).

If, for instance, a depositor holds an eligible savings account with a balance of EUR 90,000 and a payment account with a balance of EUR 20,000 at the same credit institution, the maximum compensation shall be EUR 100,000.

This method will also be applied if a credit institution operates under different trademarks. This means that all deposits with one or more of these trademarks are in a total covered up to EUR 100,000.

(2) Special cases:

The joint accounts are divided between the co-owners in equal shares, unless contractual provisions stipulate a different allocation key. The share belonging to each is added to their separate own accounts or deposits, and each co-owner is entitled to the compensation amounting to EUR 100,000 separately.

Deposits on an account to which two or more persons are entitled as members of a business partnership, association or grouping of a similar nature, without legal personality, are aggregated and treated as if made by a single depositor for the purpose of calculating the limit of EUR 100,000.

In case of certain deposits with an exceptional nature (deposits resulting from real estate transactions relating to private residential properties, deposits resulting from a compensation for damages suffered by the depositor and paid in capital, deposits resulting from the payment of certain retirement benefits or inheritance) are protected for a coverage level above EUR 100,000, for a limited period following their receipt. (For more details, please refer to the website of the FGDR).

(3) Compensation:

Compensation to the depositors of any branch incorporated in the territory of Hungary of a financial institution established in another EEA Member State shall be paid via the OBA in accordance with the provisions of the deposit guarantee scheme of the home Member State, for instance, France, from the funds made available by that scheme (the FGDR).

In case of insolvency of your credit institution, compensation is paid by the French deposit guarantee scheme. Regarding the notification of depositors, in the name of the French deposit guarantee scheme – as the deposit guarantee scheme of the home Member State – the OBA shall notify the depositors affected by the compensation in the territory of Hungary.

The OBA shall repay deposit to the depositors in the amount of up to EUR 100,000 on behalf of FGDR within 7 working days from the date on which the French Supervision and Resolution Authority (Autorité de Contrôle Prudentiel et de Résolution) determines the unavailability of the deposits with your credit institution that have adhered to the French deposit guarantee scheme, in accordance with paragraph 1 of article L. 312-5 of the French monetary and financial code.

This period concerns compensation which does not involve any particular treatment or any additional information necessary for the determination of the compensable amount or identification of the depositor. If special treatment or additional information is required, forwarding of compensation amount shall be made as soon as possible.

If you do not receive the compensation within 7 days, please contact the OBA. (For more details, please refer to the website of the OBA).
